

### **NOW OPEN!**

*Great news!* QuaverMusic.com's Virtual World is LIVE! It's the place for you and your students to create original music using QStrum, QComposer, QBackbeat, QLoops and QSynth, as well as explore all types of musical styles via the Metro and Phone Box.

### **FREE PLAY!**

Most of QuaverMusic.com is FREE and available to everyone, including all your students! They will enjoy hours and hours exploring all the free content.

### **BONUS QUAVERNOTES FOR YOU!**

There are certain elements, however, that require QuaverNotes to enjoy the full benefits of the site, like downloading MP3's of your own songs, additional music loops, exclusive avatar and music room decorations, and so much more!

We have simplified our website access structure and have created a Premium Account for purchasers of our DVDs. Those who have purchased the Full Kit (all 30 episodes on 15 discs) will receive a year's supply of QuaverNotes! Those who have purchased individual DVDs or Units will receive 500 QuaverNotes for every DVD purchased.

The Premium Account is your pathway into QuaverMusic.com, as well as access to the Online Quaver Classrooms relating to the specific episodes you have purchased.
